

Capabilities

- NH₃, CO₂, HFC, HC & HFO system expertise
- Complete project life-cycle
 - Design, manufacture, install and commissioning
 - Through life support & breakdown servicing
- Bespoke refrigeration systems
- Bespoke controlled environment systems
- Heat load calculations and assessment
- Project definition & specification
- System upgrade and replacement consultancy

Expertise & Advantage

- Custom refrigeration solutions and packages
- Whole system life-cycle expertise in-house in Australia
- 24/7 national breakdown and service response
- Remote and rural client location support
- Energy efficiency optimisation
- Established Australian supply chain
- International supply chain reach back
- Multi-sector experience and expertise

Key Customers & Projects

- BAE Systems Maritime Australia
 - Hunter Class Frigate Program Food Refrigeration Systems
- ASC Pty Ltd
 - Collins Class refrigeration equipment upgrade
- Daronmont Technologies
 - Deployable Shelter ECU Development & Supply
- PWR Advanced Cooling Technology
 - Low heat radiation chiller system prototyping
- Other clients (selection, projects & maintenance):
 - Taylor Brothers Marine, LM Australia, PMB Defence
 - Quickstep Aeroservices, Babcock, Boeing
 - Coopers Brewery, Haighs, TFI, Oz Minerals/ BHP, API
